The Eagle Tru-Cut is the economical unit of our tire cutter series. This patented unit is designed to cut car, truck and rear tractor tires. Range is up to 11 x 24.5 x 12 ply truck tires. The Tru-Cut gives you the economy package and allows you to still cut two tires in one cut. Units are available as stationary or portable, gas, diesel or electric. The "no frills" answer to cutting car and truck tires.

The cutting time for this unit is estimated at 2,000 lbs. of quartered tires per hour.

Stationary Unit
