

Saturn Dual Shaft Stationary Primary Shredder

Use as stand alone shredder or as a pre shredder

Shredder can be fed with loader, forklift, grapple or via conveyor

Drive system – Hydraulic , electric or hybrid-drive design

Dual shaft/ dual rotor design with different shaft speeds

Heavy Duty internal gearbox

Heavy Duty variable speed shafts (hybrid drive)

Custom blade widths to match your required sizing

High Alloy blades materials with optional hard-facing to increase cutting effectiveness

High tolerance for contamination

Recirculation systems for multi-pass processing if needed to meet required size reduction

Automatic reversing function when system hits overload conditions

Standard sizes range from (L) 44" x (W) 28"

(L)120" x (W) 72"

(L) 166" x (W) 100"

With expanded or reduced-size designs (custom sizes available to accommodate your specific materials)
